

Mapa ovlivnění území Krkonošského národního parku technickým zasněžováním a jinými odběry vody

Mapa ovlivnění území Krkonošského národního parku technickým zasněžováním a jinými odběry vody mapuje odběry vody z vodních toků a zdrojů podzemní vody, které jsou větší než 500 m³ / měsíc, na území Krkonoš. Na základě dat z níže uvedené tabulky a velikosti užitých symbolů v mapě je možno porovnat velikost odběrů vody mezi jednotlivými odběrateli v období let 2015 – 2019 a porovnat tak velikost odběru vody pro technické zasněžování sjezdovek s velikostí ostatních odběrů. V mapě je dále znázorněna poloha sjezdovek s označením, která část sjezdovky je technicky zasněžovaná a která není. Nechybí ani přehled vodoměrných a meteorologických stanic. Nezbytnou součástí mapy je i zobrazení polohy jednotlivých zón ochrany přírody v rámci Krkonošského národního parku.

Textová příloha

Tabulka odběrů povrchové vody v období let 2015 - 2019

Vysvětlivky k tabulkám:

ID - Číslo odběru v mapě.

Druh odběru:

Odběr vody pro technické zasněžování.	Odběr vody pro zásobování obyvatel pitnou vodou.	Odběr vody pro průmyslové podniky nebo pro zemědělství.	Odběr vody pro ostatní účely –koupaliště, golf, významnější odběry pitné vody pro 1 uživatele.

Odběratel - odběrové místo - název odběratele.

TOK - vodní tok, z něhož se odebírá voda.

MZP - velikost minimálního zůstatkového průtoku pro daný profil [l/s].

Okamžitý - velikost povoleného maximálního okamžitého odběru [l/s].

Měsíční - velikost povoleného maximálního měsíčního odběru [tis. m³].

Roční - velikost povoleného maximálního ročního odběru [tis. m³].

Rok odběru - v daném řádku jsou uvedeny hodnoty odebrané vody v daném roce.

Velikost měsíčního odběru - odběry vody během daných měsíců [tis. m³].

Velikost ročního odběru - velikost odběru během daného roku [tis. m³].

Červené ohraničení čísla - překročený limit odběru.

Pozn. V případě provedené změny u povolení odběru maximálního množství vody během období let 2015 – 2019 je uveden v tabulce pouze povolený nejvyšší odběr.

V tabulce jsou uvedeny všechny odběry vody větší než 500 m³ / měsíc. V tabulce jsou uvedeny i některé odběry vody menší než 500 m³ / měsíc, které nemají povinnost odběratelé hlásit do evidence. Tyto podlimitní odběry jsou uvedeny v případě, že některý měsíční odběr během roku překročil hodnotu odběru 500 m³ / měsíc, a ve zbylých případech byly odběry pod hodnotou 500 m³ / měsíc, případně u odběrů vody pro účely technického zasněžování (pokud údaj odběratel poskytl).

Zdroj dat pro tabulku: Údaje z databáze HEIS VÚV T.G.M., Povodí Labe, a.s.
